

## The Heart of Integrity

As a global leader in the tool and mold industry, Integrity provides design, build, manufacture, repair and maintenance solutions for our client's around the world. We're known for the diversity in the projects we handle - small to large scale, simple to complex and a complete range of mold commodities. Integrity is not just our name - it's a core value of every team member in every department at every Integrity location.

We commit to excellence for our customers by:

- Continually improving our processes
- Enthusiastically embracing and driving change
- Investing in the most advanced machines & technology
- Building and sustaining a creative and diverse global team

## Our Corporate Services

Most businesses build their organization around product lines, business units or geography. At Integrity, we build our organization around the customer. Think of us as Service-Centric.

Integrity separates itself from its competition because we are driven to be versatile. Our 11 facilities are designed to collaborate as well as work independently. The volume of Integrity machines and technology means we can customize and handle your most complicated projects.
